REMARKS

Applicants provide the present submission in response to the Official Action of March 1, 2006 and in compliance with the requirements of 37 CFR 1.84(c) and 37 CFR 1.121(d), as discussed in Applicants' Amendment of June 1, 2006. The accompanying replacement drawing sheets include revisions to Figures 4A-4C, 10, 15A-15C, 22, 28, 32 and 33 to respectively illustrate the source/drain region junction (shown by the dashed line) with the insulating layer and the gate electrode extending therebeyond, as requested by the Examiner. Applicants respectfully submit that these revisions do not add new matter, as the specification and claims as originally filed describe these source/drain region junctions. *See*, for example, Specification, Page 3, lines 18-19 and Page 7, lines 14-15.

Accordingly, Applicants submit that the present application is in condition for allowance, which is respectfully requested. Applicants encourage the Examiner to contact the undersigned by telephone to resolve any remaining issues.

Respectfully submitted,
